Additional project demonstrations can be found in my [portfolio](#).

WORK EXPERIENCE

Junior Front-End Web Developer and Cloud Practitioner(apprentice)
Generation USA, (online apprentice), Washington and Atlanta, USA |02/2022 - 08/2022

- Participated in a 22-week, Jr. Cloud Computing and Front-End Web Development program.

- Developed skills in Linux, Python, AWS, DevOps, HTML, CSS3, SCSS, JavaScript, React, Git, Vue.js, and GitHub.
- Contributed to individual and group projects. Projects available in [portfolio](#).
- Gained hands-on experience with AWS cloud services, including EC2, S3, RDS, ELB, VPC and EBS.
- Used code best practices to execute assigned tasks consistently and run and test to check if code is correct.

Server

Earls Kitchen & Bar Restaurants, Grande Prairie, AB, Canada |04/2017 – 07/2022

- Demonstrated exceptional customer service skills in a fast-paced restaurant environment, ensuring customer satisfaction and building strong relationships.
- Effectively managed multiple tables simultaneously, showcasing excellent time management and multitasking abilities.
- Collaborated seamlessly with kitchen and bar staff to ensure efficient operations and timely delivery of orders, emphasizing strong teamwork and coordination skills.
- Resolved guest concerns and complaints promptly and effectively, demonstrating problem-solving skills and the ability to handle challenging situations with composure.
- Maintained accuracy in handling cash and credit card transactions, showcasing meticulous attention to detail and precision.
- Adapted quickly to changing demands and prioritized tasks based on customer needs, displaying flexibility and the ability to work under pressure.

Sales Engineer

Equatorial Business Group PLC, Addis Ababa Ethiopia|01/2013 – 01/2015

- Improved communication strategies for sales team to achieve high performance, which drew new customers including 32 key accounts within 3 months.
- Consulted customers on automotive technological features and use case depending on their needs as an automotive sales engineer.
- Through effective communication formed a beneficial business relationship with government and non-government companies resulting in a key endorsement for the company products.

Design & Maintenance Engineer

Saudi Star Agricultural Development PLC, Addis Ababa Ethiopia|09/2010 – 06/2013

- Helped build the first Mega Rice Milling Factory in East Africa. Assisted in all phases of design, providing quick and accurate information.
- Utilized AutoCAD and solid-Works software programs to create an enhanced design layout for imported resources that need adjustments.
- Strategized and organized resource and technicians as per requirement making adjustment to plans when information changes as a lead hand.
